## Message from Head of School - May 2026

**Dear Parents/Guardians**

We are off to a fine pace in Term 3!

Our Science week was a great success, undoubtedly building what we call 'science capital' (a student's experiential understanding of Science) across all year groups. Scientific wonder knows no limits. Our week of exploration, led by our very own Nutty Professor (Mr Simon Efange), culminated in the construction of scientifically sophisticated Rube Goldberg machines, transforming ordinary recycled materials into an extraordinary sequence of kinetic art - proving that complex physics is best learned through hands-on experimentation. Thank you to our Homeroom teachers and Mr Efange for hosting such a magical series of events.

Our popularity as the 'school of choice' continues to grow exponentially with many prospective parents attending showcase events after school and at the weekends. Term 3 has already witnessed two very successful events - our Twilight Tour and story telling themed showcase, as well as another popular weekend Play Date. Many new parents have been referred to us from our existing community members, and we thank you for your continued support and for the trust you place in us to inspire and educate your children every day. Don't forget the Parent Referral promotional that rewards you advocacy for us - see details below

I had the pleasure on Saturday 25th April to witness our U11 & U13 mixed Basketball teams enjoy a major sports competition at BASIS International School. The way our teams play with such generosity of spirit is a stand-out factor in comparison to other teams. I think this is partly due to the natural 'underdog' identity that all new schools must experience. Our U13 team pulled through some tough pool games to win the tournament - a win symbolised by their unity, resilience and determination to prevail. An incredible mindset at such a young age. I want to thank the coaches and parents who support our sports teams, and for building such an incredible team around the team!

Please don't forget to support our charity donation to Wat Mai Si Muen by baking some lovely cakes or cookies for the Biggest Bake Sale Ever this Friday 8th May. Cake Coupons are available to purchase each day this week (5 x 20BHT coupons per book = 100BHT). Please also be reminded to support our PTA coffee morning on Friday 15th May (8.30-9.30am) to acknowledge the International Day of Families.

So, in just over two weeks we have been very 'busy', however I'm unsure if this is the most appropriate way of describing our experience. 'Busyness' feels like a slightly chaotic and unstructured word, where we seemingly lack intention as things just collide together in an uncoordinated fashion. This is far from the truth. In term 3 we intentionally map our learning experiences to 'bring together' elements of learning, which include a blend of academic assessment (eg end of year academic assessments); experiential learning (eg our trips and expedition programme); thematic exploration (eg science week; heart & sole etc); and opportunities to celebrate our first year at SBS Bangkok (eg the conclusion of our 2026/27 House competition). I prefer to describe our pace and approach as '**purposeful**' rather than 'busy' and look forward to the many moments ahead that will strengthen our connections and celebrate the unique achievements of our students.

With kind regards,

**Neil Crossland**  
**Head of School**

## Bake Sale

 **SBS International School**  
Bangkok
