

Message from Head of School - August 2026

Dear Parent and/or Guardian,

We are looking forward to welcoming you to SBS International School Bangkok for our first day of the new term this **Monday 24th August**

Please be advised that the first few weeks of school are usually busier than normal, particularly at the beginning and end of the school day. Once our full range of activities and after-school programmes commence, departures become more staggered and traffic generally settles. We ask everyone to please be patient, drive carefully and slowly, and allow additional time for your journey during these first few weeks.

To facilitate a gentle start for our youngest learners, please see the arrangements below regarding drop-off and pick-up for the **First 2 Weeks Only** (24 August to 4th September)

Please read carefully:

Secondary:	Start - 8.00am	Pick-Up - 3.10pm

Entry Precautions

Please note the following:

1. During normal school days all staff, parents and visitors are expected to wear their ID badges.
2. For safeguarding and security reasons, security may request a bag check on entry. If a visitor does not agree, entry may be refused.
3. All vehicle entry points have CCTV with sufficient resolution to see number plates.
4. All entry points are covered by CCTV cameras.
5. Visitors must comply with the instructions of our security and gate teams.
6. Be aware that entry screening takes place at all gates and, at busy times, delays may occur.

Emergency Procedures and Safety

The school has comprehensive emergency procedures and policies in place to ensure that we are prepared to respond appropriately to a range of situations.

During the first few weeks of the school year, we will conduct some announced practice drills, including evacuation and lockdown procedures. These are planned practices designed to ensure that students and staff understand what to do and that our procedures work effectively.

During any such practice, staff on campus will direct and support students and visitors. We ask parents and visitors to follow staff instructions carefully and remain calm throughout.

Student Health and Wellbeing

The health, wellbeing and safeguarding of our students remain central to our mission at SBS Bangkok.

We have established procedures through which students, staff and parents can raise or express concerns relating to the wellbeing, safety or welfare of our students. We want everyone in our community to feel that they have someone they can speak to and that concerns will be listened to and addressed appropriately.

Our Primary and Secondary Principals will provide further information about these procedures in their respective Newsletters. Thank you for your continued support and cooperation as we begin another school year together. We appreciate that the first few weeks can sometimes be challenging as everyone settles into new routines, and your patience and understanding are greatly appreciated.

I wish all our students and families a wonderful start to the new school year and look forward to sharing what promises to be another very special year at SBS Bangkok

With kind regards,

Neil Crossland
