

Message from Secondary Principal

Gary Crumbie
Secondary Principal

Dear SBS International School Bangkok Families,

Welcome to our first newsletter of the academic year. A warm welcome back to our returning families, and an equally enthusiastic welcome to all the new families joining our community for the first time, we are delighted to have you with us. I hope you all enjoyed a restful and refreshing summer break.

We kicked off the week with our very first assembly centered on the theme: **New Term, New Faces, Shared Standards.** I spoke with the students about the immense value of a fresh start, challenging each of them to reflect on what they want their new beginning to look like and how they plan to show up for themselves and their peers this year.

We have loved getting to know our new students this week! While there are still a few shy smiles as everyone settles into a new routine, it has been wonderful to see how quickly they have felt at home and embraced our community. Many have shared how much they enjoyed their very first week, and it is clear that great new friendships are already forming. As they continue to find their footing, I want to remind all of our new families and students that my door is always open, whether they need a bit of guidance, a quick chat, or just a familiar face to say hello.

The weekly newsletter is an opportunity for us as a school community to share a taster of the fantastic learning that takes place each week with a selection of photos of students in action. It is also an opportunity to celebrate success (both inside and outside school), as you will see from this week's edition, our students were in action throughout the summer achieving some amazing things. Finally, the newsletter is a chance to share important reminders, dates and information linked to the Secondary school.

I hope you enjoy this week's edition as it is packed with warm welcomes, a look back at our first week, a celebration of some fantastic achievements over the summer and important reminders for the upcoming week and the term ahead.

English Year 7

Welcome to Year 7 English! We hit the ground running during our very first week of Lower Secondary School, blending community-building with creative critical thinking.

Here's a good one:

Soup?

Salad?

Sandwich?

Pizza

Building Connections & Community Our main focus this week was getting to know one another and settling into our new classroom routines. To break the ice, students jumped into an engaging activity called Soup, Salad, or Sandwich? Tasked with categorising various food items into one of these three categories, students quickly found themselves in lively, passionate debates. Is a hot dog a sandwich? Is cereal a soup? The exercise was a massive hit, sparking fantastic discussions while helping students practice articulating their reasoning and listening to diverse perspectives.

Expanding Our Vocabulary On the academic front, students officially set up their Membean accounts this week. Membean will serve as our primary platform for vocabulary acquisition throughout the year, using personalised, adaptive learning to help each student expand their word bank at their own pace.

Unlocking Creative Thinking To round out our week, students teamed up for an activity called Odd One Out. Designed to push their analytical and creative boundaries, this task challenged groups to evaluate sets of items and defend their choice of which item didn't belong. Rather than searching for a single "right" answer, students were encouraged to think outside the box and construct compelling, inventive arguments for their choices.

It has been a wonderful start to the term, and I am thrilled to be working with such an enthusiastic group of learners this year!

English Year 8 & 9

Welcome back to English! Years 8 and 9 made a seamless transition into the new academic year during our first week of Lower Secondary School, balancing familiar routines with fresh intellectual challenges.

Reconnecting & Setting Expectations Our priority this week was re-establishing our classroom community, building rapport, and setting clear goals for the year ahead. Students reconnected with peers, got to know my expectations as their teacher, and settled back into a collaborative learning environment ready for upper key stage challenges.

Reinforcing Vocabulary Acquisition Students successfully logged into and set up their Membean accounts to kick off this year's vocabulary growth. By utilising Membean's adaptive, spaced-repetition algorithm, students will continue building sophisticated word knowledge tailored to their individual reading and writing levels throughout the term.

Flexing Creative Reasoning To cap off the week, students tackled an activity called Odd One Out. Designed to challenge their high-order thinking, the task required students to analyse groups of concepts and justify which element stood apart. Because multiple correct answers were possible, students had to rely on lateral thinking, precise phrasing, and persuasive arguments to defend their unique perspectives.

It has been a focused, energetic start to the term, and I look forward to guiding these students through another strong year of language and literature!

PE - A Great Start to the year!

It has been a positive and energetic first week of Physical Education for our Year 7, 8 and 9 students. This week focused on welcoming students back, establishing PE routines and expectations, and building teamwork and communication through active games and activities.

Getting Active & Building Teamwork

Students took part in a variety of movement, fitness and team-building activities designed to get everyone active and working together. We focused on communication, cooperation, sportsmanship and creating a positive environment in PE.

Beginning Our Basketball Unit

Students were also introduced to our first unit of the term, Basketball (Invasion Games). We reviewed fundamental skills including ball handling, passing, movement and basic game play. These activities also gave us an opportunity to observe students' current skill levels as we begin the new school year.

It has been a fantastic start to the year, and we look forward to seeing our students continue to develop their skills, confidence, teamwork and enjoyment of physical activity throughout the term.

Applied English

We kicked off our first week by introducing students to the core mission of the course, examining the world through diverse lenses, questioning assumptions, and collaborating to understand complex global issues.

Students began by exploring what it actually means to hold different perspectives. We discussed how an individual's background, culture, and experiences shape how they view the world, establishing a foundation of empathy and open-mindedness that will guide our discussions throughout the year.

To prepare for the collaborative work ahead, students learned about the structure of the Global Perspectives course and engaged in interactive team-building exercises.

The highlight of the week was a Worst Case Scenario activity, where groups were tasked with solving high-stakes, unexpected challenges together. This fast-paced exercise pushed students to communicate effectively, negotiate different ideas under pressure, and leverage each team member's unique strengths to find creative solutions.

It was a fantastic, high-energy start to the term, and I am excited to see these emerging global thinkers grow throughout the year!

Mandarin Y7-9 - Speak, Connect, and Get Started

1. Welcome Back

This week, Y7, Y8 and Y9 students eased back into Mandarin with greetings and simple exchanges, nothing too heavy, just enough to shake off the summer rust and get everyone talking again.

The focus was on getting comfortable using Mandarin aloud, reconnecting with familiar language, and starting the new semester with confidence.

2. Meet Your Classmates

Students took part in a "Find Your Match" interview game, using Mandarin to discover classmates who shared their hobbies, favourite foods, favourite subjects, or after-school activities.

It was a simple way to turn familiar classroom language into real conversations, with plenty of speaking practice, movement around the classroom, and a few new connections along the way.

3. Mandarin This Term: What to Expect

This term, Mandarin will be about more than working through a textbook. Students will have regular opportunities to **speak, collaborate, support each other and use Mandarin in meaningful contexts.**

In the classroom, students can expect:

- **Peer coaching** - students learning with and from one another.
- **Mixed-level learning** - opportunities for students to work at an appropriate level of challenge while supporting their classmates.
- **Purposeful language games and active learning** - using interaction and repetition to make Mandarin memorable.
- **Ongoing assessment** - not just tests, but regular opportunities to show what students can understand and communicate.

There will also be opportunities to take Mandarin beyond the classroom this semester:

- **Mandarin Coffee Shop** - a weekly opportunity for students to chat with Mandarin-speaking staff across the school in a relaxed, real-life setting.
- **Secondary-to-Primary Peer Teaching** - secondary students will have the opportunity to design and teach their own Mandarin activities for younger learners, developing both their language skills and leadership skills.
- **Mandarin Trip to Bangkok's Chinatown** - students will take their Mandarin into the real world, completing practical challenges and communicating as much as possible in Mandarin.

To help us understand where each student is starting from, students also completed a Mandarin level assessment this week. The results will help us better understand each student's current level and provide the right balance of challenge, support and opportunities for progress as the semester develops.

A strong start to the semester — now we are ready to speak, connect and get started!

Maths - Welcome Back Everyone!

Year 7

We've added up a fantastic first week of mathematics during lessons. Students dived straight into our Integers unit, working with addition, subtraction, multiplication, and division. Next week, we will multiply our momentum by tackling HCF, LCM, divisibility tests, and square and cube roots.

"Without mathematics, there's nothing you can do. Everything around you is mathematics. Everything around you is numbers." - **Shakuntala Devi**

Year 8

We've made a great start in our first week in both Mathematics. Students dived straight into integers, tackling factors, multiples, prime numbers, and multiplying and dividing integers.

Next week, we will raise our momentum to the next power as we move onto square roots,

"In mathematics, the art of proposing a question must be held of higher value than solving it." - **Georg Cantor**

Year 9

Welcome back to a brand new school year! It has been an exponential start to the term in mathematics. This week in Mathematics, we dived straight into Unit 1: Number and Calculations. Students explored irrational numbers, mastered writing numbers in standard form, and tackled positive, negative, and zero indices alongside the laws for multiplying and dividing them.

Next week, once we have completed unit 1, we move on to Unit 2: Expressions and Formulae. Students will practice constructing algebraic expressions, applying substitution, and combining expressions with indices. This will be an important foundation to further algebra topics, studied later in the year.

"Pure mathematics is, in its way, the poetry of logical ideas." - **Albert Einstein**

Drama

This first week in Years 7–9 Drama, students began the year by establishing the foundations for a positive, creative and collaborative Drama classroom. Lessons focused on ensemble building, communication, concentration and confidence, with students taking part in practical games and introductory performance activities. We also established expectations for working safely and respectfully in the Drama space, including the importance of listening, cooperation and supporting fellow performers.

Students explored how successful Drama depends on working together, responding to others and communicating ideas through performance. Through group challenges, movement and improvisation activities, they began developing their confidence as performers while getting to know their classmates in a creative setting. These introductory lessons will provide the foundation for our upcoming work in characterisation, improvisation and scene building as students begin developing the practical and analytical skills required to succeed in Drama.

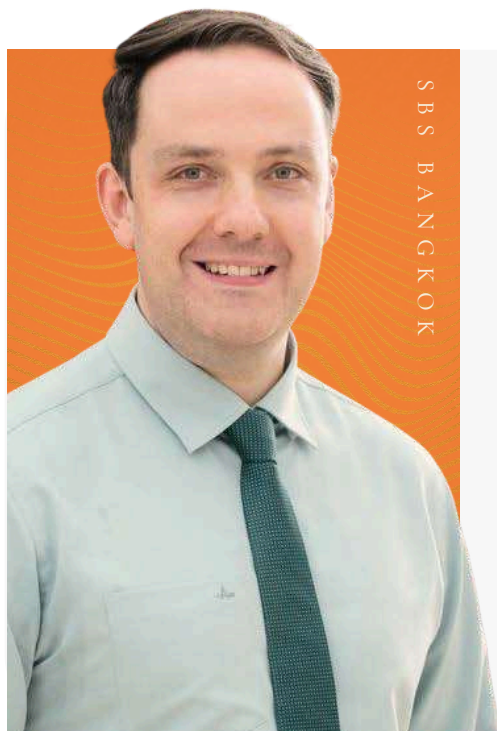

Liverpool football trials in photos

Please join me in welcoming our fantastic new colleagues to the Secondary Team

MR PAUL

Intensive English Teacher
(facilitating our Intensive English Course)

Mr Paul joins us with a wealth of varied teaching experiences working in both private and public schools and with learners from different age groups. Paul has spent the majority of his career in Thailand, but gained some valuable experience in the Korean public school system. Paul leads our new provision for English Language Learners who require intensive English tuition to meet the demands of the mainstream Cambridge programme.

Paul's role requires a high degree of personalised instruction and he strives to seek out the best activities and resources for his learners, keeping their interests, personalities and educational needs in mind.

MR VICTOR

Music Teacher

Mr Victor takes over as our Music specialist and has been an educator for more than 20 years - a decade of which has been spent in Thailand. Mr Victor is known to the SBS community having spent several years leading the music programme at our Chiang Mai campus. Mr Victor brings real-world musical experiences into the classroom, inspiring students to enjoy the learning process while developing essential skills and confidence.

Victor is joined by Quennie (our Year 4 teacher) and their two boys. Welcome to the Beltran family!

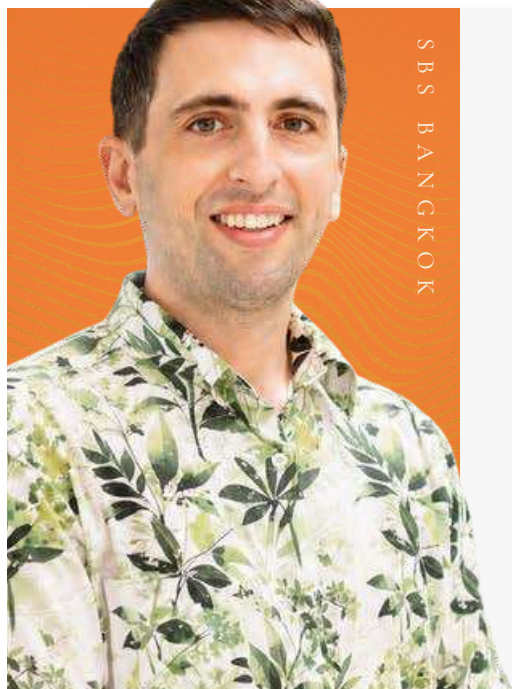

MR YI-AN (IAN)

Deputy Principal (Primary School)

Mr Ian joins us from the International Christian School Nonthaburi and previously from several well known institutions in Hong Kong. Ian received his teaching certification from the University of Sunderland, UK and has a Masters Degree in English Studies and Literature from City University of Hong Kong. Ian is excited to join the Senior Leadership team and lead the development of curriculum and teaching standards across the Primary School.

Ian strives to create classrooms where high academic standards meet genuine care. His goal is to cultivate a supportive and structured environment where every student at SBS Bangkok feels seen, valued, and empowered to tackle new challenges with confidence.

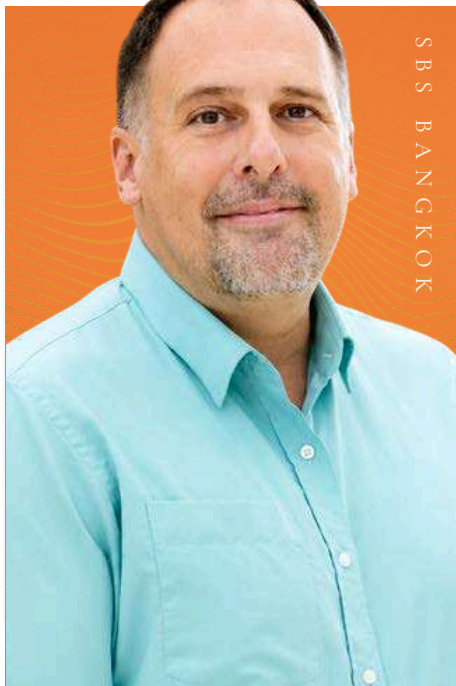

MR JOHN

English and English as a Second Language Teacher

A licensed teacher in both Thailand and the US, Mr John joins us having rebuilt his previous school's phonics and literacy programme from the ground up, working with students at various reading levels. John understands how to break down language instruction for learners who require support, and has created and utilised a range of material and digital resources to personalise learning.

We look forward to employing John's expertise in harnessing technology to make learning more accessible, engaging, practical, and enjoyable. John's daughter will accompany him to school in Year 4.

MR JASON

English and Drama Teacher

Mr Jason is a passionate teacher of English and Drama and is qualified with a Master of Fine Arts in Professional Writing from Southern New Hampshire University, US; a Post-Graduate Certificate in Education from the University Of Nottingham (International - China); and a Bachelor of Literature from the University of South Florida, US.

Most recently at Heathfield International School Bangkok, Mr Jason has previously worked across different cultures in Thailand, China and Malaysia shaping his appreciation for curiosity, creativity, and the connections that make a school community truly unique.

MS FRITZIE

IT Teacher and Systems Manager

Ms Fritzie joins us from our sister school in Chiang Mai and has spent a lot of time already with us at SBS Bangkok during our first year setting up our IT systems and website. Ms Fritzie is an experienced Cambridge practitioner with 20 years of teaching experience, six years of that teaching IGCSE and AS & A Level IT and Computer Science.

An engineer by profession and educator by vocation, she holds a Bachelor of Science in Computer Engineering, a Master of Science in Information Technology and a Postgraduate Diploma in Professional Education, alongside several Cambridge Professional Development programmes.

Scuba time on Koh Tao

During their summer holiday, four students, Yasmin, Tee, Melbourne (from Y7), and Buning (Y8) travelled to Koh Tao to complete their Open Water certification. After spending several weeks in the classroom and completing their pool session, they were ready to begin their open-water dives.

Their first day consisted of two shore dives. They geared up on the beach before entering the water and completing both dives from the shore. This gave them valuable time to become comfortable in the water and further develop and refine their diving skills.

The following day, they completed two more dives, this time from a boat. They travelled to two different dive sites, where they had the opportunity to see a variety of marine life and explore fascinating underwater structures. It was an exciting experience that allowed them to put their skills into practice while discovering the underwater world of Koh Tao. They successfully completed their course and are now Junior Open Water Divers. This means they can continue exploring the underwater world and dive at locations around the world.

If you are interested in learning more about SBS Dive Club and or joining see the information flyers at the end of this week's newsletter.

Congratulations

Congratulations to Anda - Y7 who participated in July, participated in the Korea Music and Talent Competition 2026 – Preliminary Round in the Piano Solo category. She was awarded the Silver Award and has qualified for the Finals,

We wish her the best of luck for the Final Round being held in South Korea.

Well done to Anda - Y7 who was also busy in the summer performing as a solo pianist in a volunteer music activity at the Bang Khae Social Welfare Development Center for Older Persons. The activity was organised to bring happiness, warmth, and encouragement to senior citizens through music and live performances.

Well done to Meya - Y8, participated in Cirque Hup Huahin, Thailand, International Aerial Competition & Festival 2026, Hammock category, held on 4 July 2026 at Vic Huahin and was awarded Silver Medal!

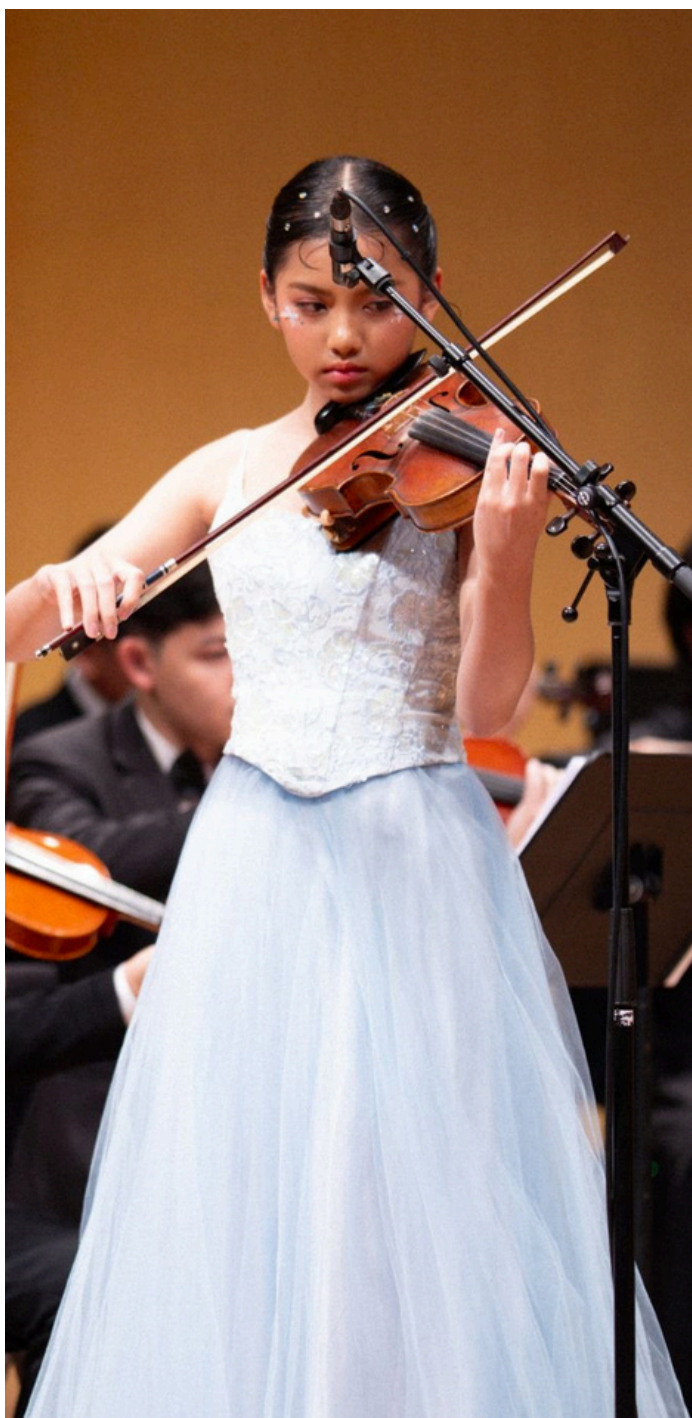

Congratulations to Pim - Y8

After months of preparation including attending a workshop on stage presence and performance skills, Pim performed at The Performer Orchestra Soloist Gala Festival which took place on Sunday 28th June at the MACM Auditorium, Mahidol University (Salaya Campus).

Pim took a great deal from this experience including learning that every success comes with overcoming obstacles, and that only through their own effort and dedication can one achieve success.

Well done Pim!

Congratulations to Pang - Y7 who was awarded the ELITE AWARD in the solo dance category at the International Music Youth Competition held in Tokyo, Japan.

This was a very special achievement for Pang on an international stage, competing against talented young dancers from many countries who had qualified through the preliminary rounds in their home countries to compete in the Final Round in Japan.

Finally, Congratulations to Nam-Oon (Y8) who was in Hong Kong at the start of this week, participating in the HKIMO (Hong Kong International Mathematical Olympiad).

I am delighted to share that Nam-Oon was awarded a Bronze Medal in the competition!

Well done Nam-Oon - we are very proud of you!

Year 7 Wellbeing Lessons 2026/27

We have introduced a programme to all year groups across school called myHappymind. The curriculum is all based around helping children to understand how their brain works and to support them in developing positive skills and habits to be their very best selves!

myHappymind is delivered in schools by class teachers through a series of interactive lessons and then the children apply these learnings throughout the day.

In Year 7 - Mr Phillips will be working on the series of lessons linked to Year 6-7 transition.

To further embed this learning, myHappymind has developed a Parent App. These resources can be accessed online on your computer, or through an app on your phone. The Parent App will support you as a parent in understanding what your child is learning, activities for you to do together at home and also a Kids Zone featuring myHappymind Games plus much more!

To access these materials just go to <https://myhappymind.org/parent-resources> to create your free account or scan the QR code on the poster shown here.

You will need to enter your name, email, and authentication code.

Your authentication code is: **mhmsbs**

Once you have created your account, you will receive an email with the next steps on downloading the app. We really encourage you to make use of this free content so that you can support your child in getting the best out of the curriculum.

If you have any questions about myHappymind, please contact your class teacher.

The poster features the myHappymind logo at the top, followed by the text "Download your FREE myHappymind Parent App". Below this, three smartphones display the app's interface, which includes sections for "Introduction and Parent Overviews", "My Library", "Interactive Wheel of Emotions", "Kids Zone", and "myHappymind Podcast - Parent App". To the right of the phones is a QR code and the text: "...An online resource to support you and your family to learn more about how you can use myHappymind to support your child." At the bottom, there are three colored boxes: a green box with "myHappymind for Parents" and "Exclusively for parents with children at a myHappymind School or Nursery.", a red box with an image of a smartphone, and a purple box with "Learn all about what your children are learning in school" and "myHappymind Parent App".

Year 8 & 9 Wellbeing Lessons 2026/27

Similarly in Year 8 & 9 we have introduced a very similar program although he goes by the name myMindcoach.

In Year 8 - Ms Xiao (Ms Elis) and in Year 9 - Mr Efange will be working with students throughout the year in their Wellbeing lessons.

The programme is built on the belief that mental health education should be proactive, science-backed, fun, and accessible for all. We equip children with practical, research based tools to manage their emotions before challenges arise, making the learning process engaging and enjoyable. Additionally, the programme ensures inclusivity, supporting all children, including those who are neurodiverse, so that every student can thrive.

Through five key modules, each designed to promote different aspects of mental well-being, your child will explore:

1. Meet Your Brain: Teaches children how their brain works and equips them with self-regulation techniques to manage stress or frustration.
2. Celebrate: Focuses on helping students understand and celebrate their unique strengths and develop strong self-esteem.
3. Appreciate: Teaches gratitude, helping children to see the good in their lives, and builds resilience through positive thinking.
4. Relate: Guides students in building positive, supportive relationships, which are crucial for emotional well-being.
5. Engage: Encourages goal-setting and perseverance, helping students stay motivated and resilient when faced with challenges.

How you and your child can access the app:

To ensure your child gets the most from the myMindcoach programme, we highly recommend downloading the myMindcoach app, which gives them access to all the fun and interactive resources.

You will need to enter your name, email, and authentication code.

Your authentication code is: **mhmsbs**

Here's how you can do it:

- Head over to the myMindcoach sign up page here: <https://mymindcoach.mykajabi.com/mymindcoach-sign-up-parents>
- Once you're signed up, you will receive an email containing a link to set up your password as well as the next steps!
- With your password set up, you can now head over to your phones App Store (Apple Store or Google Play Store) and download the 'myMindcoach' App!
- Open the App and login by entering the email address you signed up with along with the password you just set up previously.
- Now you're ready to get started!

**Sign up
here!**

Upcoming Events

Next Week

A reminder that school photos will be taking place next week. All Secondary students need to be in full school uniform on Monday as Tutor Group photos will be taken. The schedule for Individual Student photos is as follows:

- **Monday 31st August** - Year 7
- **Tuesday 1st September** - Year 8
- **Wednesday 2nd September** - Year 9
- **Monday 31st August** - ECA Activities Start. Any questions or queries around ECAs please reach out to Dr Em

Please take advantage of the opportunity to meet your son / daughter's form tutor on either Tuesday or Thursday next week.

- **Tuesday 1st September** - Meet the tutor 3:30-5:00PM
- **Thursday 3rd September** - Meet the tutor 3:30-5:00PM

If you are still yet to make your appointment you can do so - [here](#)

Looking Ahead

King Mongkut's Institute of Technology Ladkrabang (KMITL).

KMITL is inviting SBS to participate in **Ladkrabang Exhibition 2026 (From Lab to Life: From Learning Innovation to Sustainable Living)**, which will be held 1-6 September 2026.

The event includes:

- Faculty and college Open House sessions
- Hands-on workshops
- Hackathon and Pitching competitions
- Innovation Expo showcasing research and industry collaborations
- Opportunities for students to explore university programmes, interact with current students, and gain inspiration for future study and career pathways.

They have also requested that schools help promote the event to students. Interested participants can register and select activities through the event website.

Reminders

a) Traffic Flow on Campus

Thank you for your patience as we assess the impact of more cars (and more students!) on site. We will continue with the arrangements below into next week, and see how participation in the Active8 Extra Curricular Programme may help to naturally stagger pick up times. Please exercise caution as you approach and exit our campus, and whilst driving on site. If you are picking up your child in person then please arrive early and leave promptly.

- 1) Toddler and Early Years continue with their second week of 'settling in' drop off and pick up times. Early Years students joining Extra Curricular Activities next week will be supervised from the end of school to the start of the activity.
- 2) Years 1-5 - pick up at the usual time (3.10pm) from the Primary entrance. Please use the card system to identify your child for collection. Any students participating in Extra Curricular Activities must be picked up after 4.30pm
- 3) Year 6 - pick up from the Secondary Entrance at 3.10pm. Please use the card system to identify your child for collection. Any students participating in Extra Curricular Activities must be picked up after 4.30pm
- 4) Years 7 - 9 pick up at Secondary entrance as normal at 3.10pm or later. Any students participating in Extra Curricular Activities must be picked up after 4.30pm
- 5) Students in Years 1-5 who have siblings in older year groups must be collected together at the Primary Entrance.

Attendance and Absence

Absence from school is categorised as either authorised or unauthorised. Authorised absence is where the school has either given approval in advance for a student to be out of school, or has accepted an explanation offered afterwards as a satisfactory justification for absence. All other absences are treated as unauthorised.

Absence should be confirmed by emailing the Homeroom Teacher and copying in the School Manager.

Parents should avoid withdrawing their child from school during term time. The school will not authorise any term time planned absences unless there are exceptional mitigating circumstances, or if the reasons for such absence fall into the following categories:

1. SBS Bangkok educational visits or field trips.
2. SBS Bangkok or other approved sporting events (fixtures or sports competitions etc).
3. Enrichment courses or opportunities endorsed by the school eg sports fixtures; National Service requirements etc
4. Absence for exceptional circumstances agreed by the Principals e.g. close family weddings; funerals; compassionate leave etc.

Parents are asked to email the school (tutor and School Manager) before 7.30am if your child will be absent. All absences will be listed as unauthorised until notification is received. If a student is too sick to attend classes then they should not be attending activities after school.

Celebrating Children's Birthdays

It is lovely to celebrate individual children's birthdays and parents are often very generous in providing 'class goodies'. However, we must ensure that any food items do not contain potential allergens, and are restricted to simple cakes or cookies - no fried chicken, steak or hot food deliveries please!!

Key Contacts

Please do reach out if you have any questions or concerns, we are all here to help and will do our best to answer your questions.
