ACTIVE8

2026-2027

This document is a directory of all activities we offer in our 2026-27 Active8 programme. Please note that some activities do not run each term. This document is to be referenced in relation to the sign up form issued to choose activities at the start of each new term.

About Our ECA (Active8) Programme

Enrichment Beyond the Classroom

At SBS Bangkok, we believe that learning takes place anywhere, at any time – both inside and outside of the classroom. Our Active8 Enrichment Programme is designed to inspire students to develop a genuine passion for learning by sparking their curiosity, imagination, and creativity.

Through participation, students become active learners — co-constructing tasks, exploring new concepts, solving real-world problems, and engaging with ideas that encourage inquiry and critical thinking.

Opportunities to Explore Passions

Our expansive Extra-Curricular Activities (ECA) programme provides students with enriched opportunities to pursue their passions and interests across a wide range of disciplines. Activities are organised into eight distinct categories, known as the “Active8 Options”:

1. **Creative Arts**
2. **Sports & Exercise**
3. **STEM**
4. **Academic Extension**
5. **Service**
6. **Performance Art**
7. **Culture**
8. **Tech Innovation**

These categories ensure that every student — from Early Years through to Secondary — can find meaningful activities that both nurture individual strengths and encourage them to discover new talents.

Early Years (Nursery & Reception)

Balance Bike

An exciting introduction to cycling that helps young children build balance, coordination, and confidence. Through playful activities, children develop essential riding skills in a safe and supportive environment — inspiring independence and a love for biking from the very beginning.

Junior Doctor

A fun and engaging introduction to the world of medical science, designed for our youngest learners. Through hands-on activities, stories, and playful experiments, children begin to explore the wonders of the human body while building curiosity, confidence, and a love for learning.

Lego Lab

A hands-on programme where children explore colours, shapes, and building basics through fun and engaging Lego activities. With Lego Engineering, Lego Creative, and Lego Technic, young learners develop problem-solving, critical thinking, and teamwork skills while bringing imagination to life.

Keyboard

A joyful first step into music through the keyboard. Children explore rhythm, melody, and creative expression in a fun, supportive environment, building confidence, focus, and a lifelong love for music.

Jazz Dance

An energetic and expressive dance programme where children develop rhythm, coordination, and confidence. Through fun movement and creative routines, young learners build strength, flexibility, and a love for performance.

Ballet

A graceful introduction to classical ballet, helping young children build posture, balance, and coordination. Through creative movement and basic ballet techniques, learners develop discipline, confidence, and a love for dance.

Arts and Crafts

A creative space where young children explore colours, textures, and materials through fun hands-on projects. Every activity encourages imagination, fine motor skills, and joyful self-expression.

Little Builders

A playful introduction to STEM where children design, build, and experiment with simple materials. Through hands-on challenges, they develop creativity, problem-solving, and critical thinking — all while having fun as little engineers.

Little Leaders

Welcome to Little Leaders, tiny heroes!

In this class, we'll learn all about being a good leader, making friends, and helping others. We'll discover our superpowers and find out how to make our world a happier, brighter place!

Get ready for fun activities and games that will help us become the awesome leaders we're meant to be! Are you ready to be a Little Leader? Let's go!

Multi Sports

A dynamic introduction to a variety of sports, helping children develop fundamental movement skills, coordination, and teamwork. Through fun games and activities, they build confidence, fitness, and a lifelong enjoyment of being active.

Stories in Action

A creative blend of storytelling, drama, and movement where children bring tales to life. Through role-play and interactive activities, they build imagination, confidence, language skills, and a love for stories.

Mandarin Clay & Character

A playful introduction to Mandarin where children explore language through creativity. With clay crafts and character discovery, they build cultural awareness, fine motor skills, and a joyful love for Chinese learning.

Learn to Swim

A gentle introduction to swimming through the Swim England Learn to Swim Programme. With qualified instructors and fun 30-minute lessons, children gain water confidence, develop basic skills, and learn essential water safety in a safe and supportive environment.

Fun-time singing

A joyful club focused on improving vocal range, rhythm, and confidence through singing a variety of fun songs.

Artistic Gymnastics

Students build strength, flexibility, and coordination while learning floor exercises and routines.

Craft Club

A creative space for students to design and complete various practical and artistic projects using different materials.

Calm Colors Club

A relaxing club where students use coloring and focused art activities to practice mindfulness and de-stress.

Cooking

Young students engage in simple, safe, and fun culinary activities to explore ingredients and basic food preparation.

Playbox Fun

Rolling, climbing, jumping, balancing - all part of the Play Box fun session

Chinese One Word One Art "一字一画"

In this fun and creative after-school class, children will explore Chinese characters through art and hands-on activities. Each week, they'll learn a new word through songs, stories, and crafts that bring the language to life!

Little builders club

In Little Builders Club, Early Years students will listen to a short story that presents a problem to solve. Using different materials such as LEGO, blocks, cubes, or straws, children will design and build their own solutions. This fun, hands-on club encourages creativity, problem-solving, and early STEM skills through play and teamwork.

Liverpool FC Academy: Soccer School

Delivered by Liverpool FC International Academy Thailand, this programme is designed to introduce young players to football through fun, engaging sessions while building strong fundamental skills, coordination, confidence, and a love for the game. The programme runs once a week on Wednesdays from 2:15 to 3:15 pm. Session Duration: 1 hour.

L.F.C.
International Academy
Thailand

Montessori Nurtured Minds

Fun, hands-on activities that inspire curiosity, creativity, and independence—helping young learners explore, discover, and grow with confidence.

Little Builders Club

Fun, hands-on building activities that spark creativity and imagination—helping young learners design, create, and build with confidence.

Thai Fun & Craft

Enjoy a variety of fun Thai-themed crafts and hands-on activities that inspire creativity while introducing children to Thai culture, traditions, and simple language in a playful and engaging way.

Creative Clay Art Club

Creative Clay Art Club is a hand-on art activity where children use clay to create animals, objects, and imaginative sculptures. The activity encourages creativity, fine moter development, and self-expression through fun and engaging projects.

Little Builders Club

In Little Builders, children will explore, create, and construct using a variety of building materials and resources. Through hands-on challenges and imaginative play, they will develop problem-solving skills, creativity, teamwork, and fine motor coordination. This ECA encourages children to design, build, test, and improve their creations while having fun and building confidence in their ideas.

Let's Learn Chinese!

Children will explore topics such as greetings, numbers, colours, animals, family, and everyday life while building confidence in listening to and speaking Mandarin. This ECA fosters communication, creativity, and cultural awareness through engaging, play-based learning experiences thoughtfully designed for young learners.

Fun-time singing

Children will enjoy singing fun songs, learning simple actions and rhythms, while building confidence, language skills, and coordination in a joyful and interactive environment.

Little Theatre Club

Step into a world of imagination, creativity, and fun! Children will explore exciting stories through interactive storytelling, puppets, sequencing activities, crafts, and role-play. They will create their own mini books, make story-inspired crafts, and bring characters to life through dramatic play. This engaging club helps develop confidence, creativity, communication skills, and a lifelong love of books and storytelling.

Fun-time singing

Children will enjoy singing fun songs, learning simple actions and rhythms, while building confidence, language skills, and coordination in a joyful and interactive environment.

Bead Club

A fun, hands-on club where children design and create necklaces, bracelets, fuse bead art, Aqua Bead creations, and more! Through playful making, children strengthen fine motor skills, concentration, creativity, and early maths concepts such as counting, sorting, and patterns—all while taking home their own unique creations each week.

Little Explorers Club

Little Explorers Club invites young learners to discover the world around them through hands-on activities, sensory play, simple science experiments, stories, arts and crafts, and exciting adventures. Each week, children will explore a new theme while developing curiosity, creativity, communication, and problem-solving skills in a fun and engaging environment.

Mindfulness

This ECA offers children a calm and nurturing space to explore mindfulness. Through yoga, simple meditation, breathing exercises, sensory play, colouring, playdough, and other relaxing activities, children will learn ways to feel calm, focused, and confident. This ECA encourages wellbeing, emotional awareness, and self-regulation in a fun and engaging environment.

Spanish Art

Through creative art activities and hands-on projects, children will be introduced to basic Spanish vocabulary in a fun and engaging way. As they create different pieces of art, they will develop an early appreciation for the Spanish language, culture and traditions. This ECA encourages creativity, communication, and cultural awareness in a playful learning environment.

Year 1 and 2

Lego Lab

A hands-on programme where children explore colours, shapes, and building basics through fun and engaging Lego activities. With Lego Engineering, Lego Creative, and Lego Technic, young learners develop problem-solving, critical thinking, and teamwork skills while bringing imagination to life.

Multi Sports

A dynamic introduction to a variety of sports, helping children develop fundamental movement skills, coordination, and teamwork. Through fun games and activities, they build confidence, fitness, and a lifelong enjoyment of being active.

Arts and Crafts

A creative space where young children explore colours, textures, and materials through fun hands-on projects. Every activity encourages imagination, fine motor skills, and joyful self-expression.

Thai Language through storytelling

Join us on a magical journey where stories bring Thai language to life!
Read, imagine, and think deeply as you explore words, meanings, and culture.
Become a little storyteller who can analyze, create, and share your own ideas with friends!

Multi Music

A joyful introduction to music where children explore rhythm, melody, and instruments through fun group activities. The programme builds creativity, coordination, and confidence while inspiring a lifelong love of music.

Eco Explorers

In Eco Explorers, we will dive into hands-on activities that spark curiosity about the natural world. The goal is to develop a sense of environmental responsibility whilst having fun.

Football

An energetic and playful introduction to football where children learn basic skills like kicking, dribbling, and teamwork. Through fun games and activities, they build confidence, coordination, and a love for the beautiful game.

Learn to Swim

A gentle introduction to swimming through the Swim England Learn to Swim Programme. With qualified instructors and fun 30-minute lessons, children build water confidence, develop basic swimming skills, and learn essential water safety in a safe and supportive environment.

Swim Club Training

Want to take your swimming to the next level? Join the SBS International Bangkok Swim Team! This after-school program is for swimmers who are ready to improve their technique, boost their fitness, and swim competitively. Our experienced coaches will help you refine your strokes and build the endurance needed to succeed in races. Get ready to train, compete, and become part of a supportive and dynamic team. Please do take note of the requirements for the swim team.

Basketball

Join the basketball class for Year 1 to 5 students to have fun, make friends, and learn new basketball skills through exciting games and activities!

Mandarin Clay time

A playful introduction to Mandarin where children explore language through creativity. With clay crafts and character discovery, they build cultural awareness, fine motor skills, and a joyful love for Chinese learning.

Ukulele

Students learn the fundamentals of the ukulele, mastering chords and melodies to play popular songs.

Think, Talk & Play Club

A fun, early development club designed to enhance foundational social, communication, and creative play skills.

One Word, One Art

An imaginative activity where students translate a single chosen word into a unique piece of visual art.

Spelling Bee / Vocabulary Challenge

Students strengthen language skills and competitive vocabulary knowledge through engaging challenges and competitions.

Artistic Gymnastics

Students build strength, flexibility, and coordination while learning floor exercises and routines.

Thai Crossword

Students enhance their Thai vocabulary and linguistic knowledge through fun and challenging crossword puzzles.

Board Game Club

Students engage in strategic thinking, social interaction, and fun competition through a variety of modern and classic board games.

Fun with Origami and drawing

Students combine the focus of paper folding with drawing skills to create beautiful, imaginative art.

Musical Performance

Students develop stage presence and collaborative skills by practicing and performing various musical pieces.

Story & Craft

Students use engaging stories as inspiration for creative craft projects, blending literacy with artistic expression.

Ultimate Frisbee

A fast-paced, non-contact team sport that emphasizes fitness, spirit, and strategic passing with a frisbee.

Handwriting Skills Club

Students receive focused instruction to improve the legibility, neatness, and consistency of their written script.

Cooking

Students learn to follow recipes and safely prepare simple, nutritious, and delicious dishes.

Homework Club

Supervised study time to catch up with your studies, dive into the book you love to read, or simply explore more of your interests and passions.

Chinese Character Art & Origins “一字一画”

explore the fascinating origins of Chinese characters through the ancient (oracle bone script) — one of the earliest forms of Chinese writing. Each week, learners will discover how characters evolved from pictures into modern forms, and express their understanding through drawing and craft activities.

Liverpool FC Academy: Soccer School

Delivered by Liverpool FC International Academy Thailand, this programme is designed to introduce young players to football through fun and engaging sessions while developing fundamental football skills, coordination, confidence, and a love for the game. The programme runs once a week on Wednesdays from 3:30 to 4:30 pm. Session Duration: 1 hour.

Football Liverpool FC Academy - Academy Course

Designed for more experienced players, this pathway provides structured training to further develop technical ability, game understanding, confidence, and overall football performance in a more advanced learning environment. The programme runs once a week on Fridays from 3:30 to 5:00 pm. Session Duration: 1.5 hours.

L.F.C. International Academy Thailand

Maths Booster Club

Do you want to improve your understanding and skills or complete homework tasks in mathematics, come along for practice, consolidation or to learn new topics in a relaxed and fun way during booster club.

Young Scientists

Students will explore the wonders of science through fun hands-on experiments and investigations, developing curiosity, observation skills, critical thinking, and a love of scientific discovery.

Meditation and Moral for kids

“As screen technology increasingly influences children’s lives, it can affect their thinking, behavior, and overall development. Meditation, prayer, and moral education help children develop mindfulness, self-control, concentration, and emotional balance. These practices also strengthen memory, improve focus, and support healthy brain development, helping children thrive in a technology-driven world.”

Maths Booster Club

Do you want to improve your understanding and skills or complete homework tasks in mathematics, come along for practice, consolidation or to learn new topics in a relaxed and fun way during booster club.

Little Spa & Wellness Club

Welcome to a world of relaxation, creativity, and natural discovery! In Little Spa & Wellness Club, children will explore fruits, herbs, flowers, and other natural ingredients through fun hands-on activities. From creating face masks and lip balms to enjoying skin spa and hair spa experiences, as well as sensory workshops, children will develop healthy self-care habits, confidence, creativity, and independence in a fun and nurturing environment.

Wonderful Thai Manners and Etiquette

We will practice a variety of Thai manners and etiquette that reflect Thai identity and culture with the students. These will include the Thai greeting (*wai*), paying respect to parents through traditional prostration, paying respect to Buddha images, table manners, proper manners for walking, standing, and sitting, as well as using appropriate language when speaking with adults and friends. Students will also develop good personality traits and presentation skills for speaking in front of an audience.

Playdough Pals: Create, Shape & Imagine!

Children will explore, build, and design exciting creations using playdough while developing fine motor skills, imagination, problem-solving, and teamwork. Each week features a new theme, from animals and food to mini worlds and story characters.

Bead Club

A fun, hands-on club where children design and create necklaces, bracelets, fuse bead art, Aqua Bead creations, and more! Through playful making, children strengthen fine motor skills, concentration, creativity, and early maths concepts such as counting, sorting, and patterns—all while taking home their own unique creations each week.

Muay Thai

Develop fitness, co-ordination, balance, and self-confidence through activites that focus on basic Muay Thai techniques and movement skills.

Imagination Station

Create, design, paint,build, and explore! Join for exciting activities including, collage making, pop-up cards, painting,and many more creative projects.

Dance Discovery

Students will learn the fundamentals of dance and movement.

Year 3-5

Inline Skating

A fun and active programme where students learn to skate with balance, control, and confidence. Through practice and play, they develop coordination, resilience, and the thrill of gliding on wheels around the campus.

Junior Doctor

An exciting journey into the world of medical science, designed for curious young minds. Through interactive projects, experiments, and guided exploration, students discover the wonders of the human body, develop critical thinking, and build confidence while nurturing a lasting interest in science and healthcare.

Minecraft Education

A creative platform where students learn through building, problem-solving, and collaboration in Minecraft's virtual world. Lessons integrate technology and creativity, fostering digital literacy, teamwork, and 21st-century skills in a fun and engaging way.

Roblox

An exciting journey into game design with Roblox Studio. Students learn the basics of game development, Lua scripting, and creative problem-solving while working together to design, build, and play their own immersive games.

Keyboard

A creative exploration of music through the keyboard, where students learn notes, rhythm, and simple songs. The programme builds musical skills, concentration, and confidence while encouraging self-expression and a love for playing music.

Jazz Dance

An energetic and expressive dance programme where students build rhythm, coordination, and stage confidence. Through dynamic routines and creative movement, they develop strength, flexibility, and a passion for performance.

World Games

Travel the world without leaving the playground! Each week, we'll dive into fun, fast-paced games from different countries — learning new skills, discovering unique cultures, and making friends along the way.

Music Club

A fun and inclusive space for students who love to sing, play, or simply enjoy music. Together, they explore instruments, develop new skills, and make music with friends — no experience needed, just enthusiasm!

Performance Theatre

From page to stage — students bring scripted stories to life through acting, expression, and teamwork. With lights, camera, and action, they build confidence, creativity, and a love for performance.

Ukele

In this fun and engaging Extra-Curricular Activity, students in Years 3 to 5 will learn to play the ukulele! They'll explore basic chords, simple strumming patterns, and play along to popular songs. The Ukulele ECA encourages musical creativity, builds rhythm and coordination, and boosts confidence

through group performances and interactive sessions. Perfect for beginners and young music lovers!

Art and Crafts

Unleash your creativity! Try painting, sketching, and making cool crafts. It's your chance to create amazing artwork and have fun with friends!

Mandarin Booster

An engaging programme designed to build Mandarin skills through games, songs, and stories. Students boost their language ability, explore Chinese culture, and grow in confidence — making Mandarin fun and exciting!

Thai Booster

A supportive programme to strengthen Thai language skills through fun activities, stories, and games. Students build confidence in reading, writing, and speaking while deepening their understanding of Thai culture.

Maths Club

If you are finding mathematics challenging and want to improve, come and join this class to support your knowledge and understanding.

English Booster

Reading, writing, and speaking in English can be tough, but it's also a blast! Our English Booster Club is here to help students in grades 3-5 sharpen their skills in a fun, supportive environment. We'll play games, read awesome stories, and practice speaking so you can feel super confident using English both in and out of the classroom. Let's get boosting!

Vex Robotics Go

An exciting introduction to robotics where students design, build, and code their own moving machines. With hands-on challenges and teamwork, they develop creativity, problem-solving, and the foundations of engineering — no experience needed, just imagination!

Basketball

Join the basketball class for Year 1 to 5 students to have fun, make friends, and learn new basketball skills through exciting games and activities!

Learn to Swim

A gentle introduction to swimming through the Swim England Learn to Swim Programme. With qualified instructors and fun 30-minute lessons, students build water confidence, develop basic swimming techniques, and learn essential water safety in a supportive environment.

Swim Club Training

Want to take your swimming to the next level? Join the SBS International Bangkok Swim Team! This after-school program is for swimmers who are ready to improve their technique, boost their fitness, and swim competitively. Our experienced coaches will help you refine your strokes and build the endurance needed to succeed in races. Get ready to train, compete, and become part of a supportive and dynamic team. Please do take note of the requirements for the swim team.

Ukulele

Students learn the fundamentals of the ukulele, mastering chords and melodies to play popular songs.

Spool Knitting for beginners

Students learn the creative craft of spool knitting to create simple, satisfying textile projects.

Short Tennis

An introduction to tennis fundamentals, focusing on technique, hand-eye coordination, and match play on a smaller court.

5C 21st Century

Students develop critical skills in Collaboration, Communication, Creativity, Critical Thinking, and Character essential for the modern world.

Spelling Bee / Vocabulary Challenge

Students strengthen language skills and competitive vocabulary knowledge through engaging challenges and competitions.

Crafted Arts

A hands-on club focusing on developing fine motor skills and creative expression through various art and craft mediums.

Fun with Origami and Drawing

Students combine the focus of paper folding with drawing skills to create beautiful, imaginative art.

Musical Performance

Students develop stage presence and collaborative skills by practicing and performing various musical pieces.

Story & Craft

Students use engaging stories as inspiration for creative craft projects, blending literacy with artistic expression.

Handwriting Skills Club

Students receive focused instruction to improve the legibility, neatness, and consistency of their written script.

Chinese Character Copying and Dictation

Students focus on improving their memory and accuracy in writing essential Chinese characters.

Cooking

Students learn to follow recipes and safely prepare simple, nutritious, and delicious dishes.

Scuba Diving Club: SSI Try Scuba & Scuba Explorers (see more details in page 30)

Students safely discover the underwater world, learning basic skills in a contained environment for aquatic exploration.

Rock Band

Students collaborate to learn popular songs, master their instruments, and perform as part of an ensemble band.

Batik

Students explore the traditional art of Batik, using wax resist and dyes to create unique, colorful textile designs.

Cheer Champs Spirit Squad (Cheerleading)

Students learn cheers, basic stunts, and dance routines to build fitness, rhythm, and school spirit.

Homework Club

Supervised study time to catch up with your studies, dive into the book you love to read, or simply explore more of your interests and passions.

English Grammar Booster

Strengthen grammar skills through fun, interactive activities, games, and guided practice. This programme helps young learners build confidence in reading, writing, and communication while developing a strong foundation in English.

Maths Booster Club

Do you want to improve your understanding and skills or complete homework tasks in mathematics, come along for practice, consolidation or to learn new topics in a relaxed and fun way during booster club.

Liverpoo FC Academy: Soccer School

Delivered by Liverpool FC International Academy Thailand, this programme is designed to introduce young players to football through fun and engaging sessions while developing fundamental football skills, coordination, confidence, and a love for the game. The programme runs once a week on Wednesdays from 3:30 to 4:30 pm. Session Duration: 1 hour.

Football Liverpool FC Academy - Academy Course

Designed for more experienced players, this pathway provides structured training to further develop technical ability, game understanding, confidence, and overall football performance in a more advanced learning environment. The programme runs once a week on Fridays from 3:30 to 5:00 pm. Session Duration: 1.5 hours.

Young Scientists

Students will explore the wonders of science through fun hands-on experiments and investigations, developing curiosity, observation skills, critical thinking, and a love of scientific discovery.

Hour of Code

“Year 4 to Year 9 students will discover how coding and artificial intelligence can transform ideas into digital creations. Hour of AI & of Code activities: they will explore block-based programming, HTML & CSS, JavaScript, and Python while creating animations, websites, games, and interactive projects.

Students will also learn how AI works through effective prompting, simple AI model training, and discussions on the responsible and ethical use of AI, developing creativity, computational thinking, and problem-solving skills along the way.”

L.F.C. International Academy Thailand

Meditation and Moral for kids

“As screen technology increasingly influences children’s lives, it can affect their thinking, behavior, and overall development. Meditation, prayer, and moral education help children develop mindfulness, self-control, concentration, and emotional balance. These practices also strengthen memory, improve focus, and support healthy brain development, helping children thrive in a technology-driven world.”

Picture Books Reading

Students will enjoy reading engaging picture books while developing reading comprehension, vocabulary, and communication skills through discussions and fun literacy activities. This club encourages creativity, critical thinking, and a lifelong love of reading.

Mental Maths Masters

Students will strengthen their mental maths skills through fun games, challenges, and problem-solving activities, helping to improve speed, accuracy, logical thinking, and confidence in mathematics.

Touch Rugby

“Level up your Wednesdays by joining our high-energy, non-contact Tag Rugby ECA! In these action-packed sessions, you will master essential skills like precision passing, explosive agility to side-step defenders, sharp defensive tagging, and strategic team communication. Whether you are a seasoned athlete or completely new to the sport, just bring your sneakers and your energy this Wednesday to build fitness, make friends, and have a blast on the pitch!”

Dance Fusion

Combine different dance styles, learn exciting, fun and synchronised choreography and develop performance skills with confidence. Perfect for students who love music, movement and expressing themselves through dance.

Street Dance Fundamentals

Learn a variety of basic dance styles, including K-pop, Popping, Locking, and B-boy.

Little Spa & Wellness Club

Welcome to a world of relaxation, creativity, and natural discovery! In Little Spa & Wellness Club, children will explore fruits, herbs, flowers, and other natural ingredients through fun hands-on activities. From creating face masks and lip balms to enjoying skin spa and hair spa experiences, as well as sensory workshops, children will develop healthy self-care habits, confidence, creativity, and independence in a fun and nurturing environment.

Little Camp Chefs

Create simple camp-style snacks, learn basic cooking skills, and have fun in the kitchen!

Wonderful Thai Manners and Etiquette

We will practice a variety of Thai manners and etiquette that reflect Thai identity and culture with the students. These will include the Thai greeting (*wai*), paying respect to parents through traditional prostration, paying respect to Buddha images, table manners, proper manners for walking, standing, and sitting, as well as using appropriate language when speaking with adults and friends. Students will also develop good personality traits and presentation skills for speaking in front of an audience.

Playdough Pals: Create, Shape & Imagine!

Children will explore, build, and design exciting creations using playdough while developing fine motor skills, imagination, problem-solving, and teamwork. Each week features a new theme, from animals and food to mini worlds and story characters.

S.T.E.A.M. Club

“Year 4 to Year 9 students will explore S.T.R.E.A.M. (Science, Technology, Reading& Writing/ Research, Engineering, Arts, and Mathematics) through interdisciplinary, hands-on projects that combine creativity, research, and problem-solving. Students will design and test real-world solutions such as building bridges and structures, creating simple machines, developing eco-city models, and investigating scientific experiments.

They will also strengthen communication and research skills through reading, analysing information, and presenting their ideas, while developing collaboration, critical thinking, and creativity across all areas of learning.”

Website and Webapp Design using AI tools (Yr 5-8)

Students will learn how to use AI tools to design, build, and publish their own websites and simple web apps. Projects may include personal websites, fictional business websites, and educational web apps. Students will develop creative problem-solving skills while learning the basics of web design, user experience, and publishing their work online.

Muay Thai

Develop fitness, co-ordination, balance, and self-confidence through activites that focus on basic Muay Thai techniques and movement skills.

Imagination Station

Create, design, paint,build, and explore! Join for exciting activities including, collage making, pop-up cards, painting,and many more creative projects.

Dance Discovery

Students will learn the fundamentals of dance and movement.

Year 6-9

Fashion Academy

A vibrant programme where children explore fashion design, styling, and craftsmanship. Through sketching, fabric work, and creative upcycling, they build confidence, individuality, and eco-conscious thinking while bringing their ideas to life in a fun and supportive environment.

Dream Builder 3D Architect

An inspiring programme where children explore the world of architecture and design through hands-on projects and creative challenges. Students learn how design shapes the world around them while developing imagination, problem-solving, and confidence as budding architects and designers.

Jewelry Makers

A hands-on programme where children learn safe and traditional jewellery-making techniques such as wiring, texturing, and crafting with metals, stones, and plastics. Students create unique pieces — from bracelets and rings to necklaces and decorations — while developing creativity, fine motor skills, and confidence.

ERC Robotics

An advanced robotics programme where students build complex robots, master gear systems and intelligent motors, and learn logical coding. Through engineering challenges and practical missions, they develop problem-solving, creativity, and STEAM skills.

Speech & Debate

Do you want to learn how to express yourself more clearly? Do you want to know how to effectively debate with others? Come join the Speech and Debate Club. We will hopefully be participating in some local competitions as well.

Music Club

A fun and inclusive programme for students who love to sing, play, or simply enjoy music. Together, they explore new instruments, learn musical skills, and make music with friends — no experience needed, everyone is welcome!

Table Tennis

Smash It at Table Tennis!
Looking for a fast, fun, and exciting sport? Join the Table Tennis Club! Whether you're a beginner or a pro, you'll have a blast learning cool tricks, improving your reflexes, and playing friendly matches with your mates. Come for the fun – stay for the challenge

Basketball

Got game? Let's make it happen! Dribble, shoot, and score big on the court. @Year 6-8 Basketball. Let's Go Ballers!

Manga/Comic Book Illustration Club

Everything Anime, Manga, and Comics! Bring your Drawing and Storytelling ideas to life. We'll practice all the techniques to help you master the art of illustrating graphic novels.

Arts & Creativity

Welcome to Arts and Creativity, young artists!

Are you ready to jump into a world of endless imagination, where the sky's the limit? In this class, we'll dive into a colorful ocean of creativity, exploring new art forms and techniques that will let your inner artist shine bright!

Each week, we'll embark on an exciting creative adventure. From painting and sculpting to crafting and designing, there's no telling what incredible masterpieces we'll create! Remember, every idea is a good idea, and every project is a chance to bring your unique vision to life.

Badminton

An energetic and fun programme where students develop agility, coordination, and teamwork through exciting badminton games. Whether fast-paced rallies or beginner-friendly play, everyone can enjoy building skills and confidence on the court.

Conversational Japanese

Have you ever wanted to learn Japanese? It's really not that hard, and with just a few lessons, you will be able to have simple conversations about things. We will also introduce some Japanese culture, but we will focus on learning the language.

Flower Arranging

Learn the art of flower arranging through small bouquets, corsages, mini vases, and flower crowns. Students explore creativity, color, and style while making beautiful pieces to share or keep.

Passport to the World Project

Travel the world without leaving school- collect stamps in your passport as we explore new countries together :)

Football

From Messi to Ronaldo, come and improve your skills and knowledge of the 'beautiful game'

Dynamic Theatre

Join the Theatre Club—where future stars like Zendaya, Tom Holland, and Millie Bobby Brown once stood in your shoes! From school stage to center stage, your spotlight starts here.

NASA For Kid

Blast off into a world of imagination! In NASA for Kids, students will step into the shoes of young space explorers, designing futuristic bases, discovering alien life, and creating their own interstellar projects. It's a journey that builds skills for the future—while having out-of-this-world fun!

Yoga

The Yoga ECA offers students in Years 6 to 8 a relaxing and energizing way to improve their physical and mental well-being. Through guided sessions, students will learn basic yoga poses, breathing techniques, and mindfulness practices. This activity helps enhance flexibility, focus, and stress management, providing a calm and supportive space to unwind and recharge after a busy school day. Suitable for all experience levels!

Chinese Calligraphy

An artistic journey into the beauty of Chinese characters. Students learn brush techniques with style and grace, exploring creativity and mindfulness while transforming writing into art.

Swim Club Training

Want to take your swimming to the next level? Join the SBS International Bangkok Swim Team! This after-school program is for swimmers who are ready to improve their technique, boost their fitness, and swim competitively. Our experienced coaches will help you refine your strokes and build the endurance needed to succeed in races. Get ready to train, compete, and become part of a supportive and dynamic team. Please do take note of the requirements for the swim team.

Conversational French for beginners

A fun, interactive club focusing on practical vocabulary and pronunciation to build basic French speaking skills.

Dance Fusion

An energetic club exploring and combining multiple dance styles into vibrant, expressive routines.

Scuba Diving Club: SSI Junior Open Water Diver Qualification (see more details in page 28)

Students work towards achieving an internationally recognized certification for supervised open water diving.

Rock Band

Students collaborate to learn popular songs, master their instruments, and perform as part of an ensemble band.

Batik

Students explore the traditional art of Batik, using wax resist and dyes to create unique, colorful textile designs.

e-SPORTS MOBILE

Students develop strategy, teamwork, and rapid decision-making skills through structured mobile gaming competition.

Maths Booster Club

An interactive club designed to strengthen foundational mathematical concepts and problem-solving techniques.

Virtual Reality (VR)

Students explore immersive, interactive digital worlds to enhance learning across subjects like science, history, and art.

Touch Rugby

A non-contact, fun activity where players learn teamwork, passing, and running skills within the rules of rugby.

Chinese Calligraphy

Students practice traditional brush control and character forms to master the elegant art of Chinese writing.

Conversational Afrikaans

A beginner's club focusing on practical vocabulary and basic pronunciation to build fundamental Afrikaans speaking skills.

Cheer Champs Spirit Squad (Cheerleading):

Students learn cheers, basic stunts, and dance routines to build fitness, rhythm, and school spirit.

Football - Soccer School

Designed to introduce young players to football through fun, engaging sessions while building strong fundamental skills, coordination, and confidence. (Session Duration: 1 hour)

Football - Academy Course

A structured training pathway focused on developing advanced technical ability, tactical understanding, and preparing players for competitive football environments. (Session Duration: 1.5 hour)

Modern World History

Explore key events, people, and ideas that shaped the modern world through engaging discussions and interactive activities. Students will develop critical thinking, global awareness, and a deeper understanding of the world around them.

Volleyball Club

Develop teamwork, coordination, and fitness through fun volleyball training and games. Students will learn essential skills, build confidence, and enjoy active play in a supportive environment.

Conversational French for beginners

Learn basic French through fun, interactive speaking activities and games. Students will build confidence in everyday conversations while exploring French language and culture.

Liverpool FC Academy: Soccer School

Delivered by Liverpool FC International Academy Thailand, this programme is designed to introduce young players to football through fun and engaging sessions while developing fundamental football skills, coordination, confidence, and a love for the game. The programme runs once a week on Wednesdays from 3:30 to 4:30 pm. Session Duration: 1 hour.

Football Liverpool FC Academy - Academy Course

Designed for more experienced players, this pathway provides structured training to further develop technical ability, game understanding, confidence, and overall football performance in a more advanced learning environment. The programme runs once a week on Fridays from 3:30 to 5:00 pm. Session Duration: 1.5 hours.

Hour of Code

“Year 4 to Year 9 students will discover how coding and artificial intelligence can transform ideas into digital creations. Hour of AI & of Code activities: they will explore block-based programming, HTML & CSS, JavaScript, and Python while creating animations, websites, games, and interactive projects.

Students will also learn how AI works through effective prompting, simple AI model training, and discussions on the responsible and ethical use of AI, developing creativity, computational thinking, and problem-solving skills along the way.”

Meditation and Moral for kids

“As screen technology increasingly influences children’s lives, it can affect their thinking, behavior, and overall development. Meditation, prayer, and moral education help children develop mindfulness, self-control, concentration, and emotional balance. These practices also strengthen memory, improve focus, and support healthy brain development, helping children thrive in a technology-driven world.”

Touch Rugby

“Level up your Wednesdays by joining our high-energy, non-contact Tag Rugby ECA! In these action-packed sessions, you will master essential skills like precision passing, explosive agility to side-step defenders, sharp defensive tagging, and strategic team communication. Whether you are a seasoned athlete or completely new to the sport, just bring your sneakers and your energy this Wednesday to build fitness, make friends, and have a blast on the pitch!”

Dance Fusion

Combine different dance styles, learn exciting, fun and synchronised choreography and develop performance skills with confidence. Perfect for students who love music, movement and expressing themselves through dance.

Street Dance Fundamentals

Learn a variety of basic dance styles, including K-pop, Popping, Locking, and B-boy.

Pre-IGCSE

Year 8 and Year 9 students will build the knowledge, skills, and confidence needed for success in the Cambridge IGCSE programme. Through engaging activities and guided practice, they will strengthen critical thinking, problem-solving, and analytical skills while developing effective study habits for future academic achievement.

Wonderful Thai Manners and Etiquette

We will practice a variety of Thai manners and etiquette that reflect Thai identity and culture with the students. These will include the Thai greeting (*wai*), paying respect to parents through traditional prostration, paying respect to Buddha images, table manners, proper manners for walking, standing, and sitting, as well as using appropriate language when speaking with adults and friends. Students will also develop good personality traits and presentation skills for speaking in front of an audience.

Maths Booster/Homework Club

Do you want to improve your assessment results or complete homework in mathematics, come along for practice, consolidation or to learn new concepts in a relaxed and fun way during booster/ homework club.

S.T.E.A.M. Club

“Year 4 to Year 9 students will explore S.T.R.E.A.M. (Science, Technology, Reading& Writing/ Research, Engineering, Arts, and Mathematics) through interdisciplinary, hands-on projects that combine creativity, research, and problem-solving. Students will design and test real-world solutions such as building bridges and structures, creating simple machines, developing eco-city models, and investigating scientific experiments.

They will also strengthen communication and research skills through reading, analysing information, and presenting their ideas, while developing collaboration, critical thinking, and creativity across all areas of learning.”

Website and Webapp Design using AI tools (Yr 5-8)

Students will learn how to use AI tools to design, build, and publish their own websites and simple web apps. Projects may include personal websites, fictional business websites, and educational web apps. Students will develop creative problem-solving skills while learning the basics of web design, user experience, and publishing their work online.

Muay Thai

Develop fitness, co-ordination, balance, and self-confidence through activites that focus on basic Muay Thai techniques and movement skills.
